

GARDENING

The Committee have employed a gardener for the care and maintenance of our grounds. This of course does not stop those of you who would still like to contribute flowers or plants into the garden.

A big thank you goes to Keith for the planting of the stunning baskets which adorn our pavilion and the planters which surround the area. Also to Denise who has kept all the cutting back and weeding done up until this time.

Many thanks to those who have helped maintain and water the grounds.

MENS

In the Men's League Season 1 unfortunately, despite some excellent results, including beating Waverley at home, the first team suffered relegation to Division 2. Now how that looks for next season remains to be seen as there is likely to be a restructuring of the league. We will keep you posted on that. All the men should have received an email asking them what games i.e. First Team (likely to play Friday evenings), Combination League (likely to play Wednesday evenings) and/or Mid Week Triples that they would like to play in.

With regard to the current season's Mid Week Triples – in League 1 the Purple and Orange teams are performing very well and at the time of writing they are placed first and third. There are a few games left to play. The Blues and Whites are enjoying a mixed season but as long as the players are enjoying their game this bodes well for the future of the club.

In the Reflex League we have again enjoyed some excellent games and at present are placed second in the League there are still a couple of games to play so we are looking forward to an exciting finish. Needless to say I will keep you all informed of developments.
